

## Products [Other]

### KJC Hydraulic Expand Shaft

#### • Operating Condition

- Hydraulic Pressure : 250~400kgf/cm<sup>2</sup> / 3,600~5,700 PSI
- Expand Dimension : 0.1~0.13mm

#### • Features

- For Slitter Main shaft or Separator shaft of the Slitter Machine
- Fixing Disc holder or Knife holder without Spacer or Lock Nut
- Easier Attaching and Detaching
- Increase the productivity

### R/J for Expand Shaft

#### • Operating Condition

- Max. Pressure : 700kgf/cm<sup>2</sup>
- Max. Temperature : 60°C
- Max. Speed : 300RPM
- Media : Hydraulic Oil
- Industry Group : Steel Industry

#### • Features

- R/J structure adopting Balance Mechanical Seal method
- Leakage of the seal part is small, but a drain is required.
- Rotary Joint used to expand the hydraulic shaft in the slit line
